

## **BL England Coal Combustion Residual (CCR) Rule Implementation Notice**

As per the Recordkeeping, Notification and Internet Requirements identified in the United States Environmental Protection Agency (EPA) CCR Rule, 40 CFR Parts 257 and 261, an official operating record has been established for the BL England Generating Station. All CCR related documents will be placed in the operating record and posted to the BL England CCR Rule publicly accessible internet site.

Surface impoundments (Slag Ponds) at the BL England Generating Station no longer receive CCR. At the effective date of the rule, the Slag Ponds will be regulated as inactive surface impoundments. It is anticipated that the Slag Ponds will be closed in accordance with 40 CFR 257.100 no later than April 17, 2018. A notification of intent to initiate closure of these CCR surface impoundments will be placed in the operating record as required.

Questions concerning the posted documents should be directed to the CCR Rule inbox - [Questions@BLEnglandCCR.com](mailto:Questions@BLEnglandCCR.com)
